

Freight Forwarding Network

MORE THAN A DIRECTORY.

A global freight alliance for independent freight forwarders. Connecting verified partners through trust, technology, and growth.

For Growing Freight Forwarders

THE GAP IN TRADITIONAL NETWORKS

MOST FREIGHT NETWORKS STOP AT LISTINGS.

What you get

- A long list of names.
- Basic visibility.
- Scattered introductions.

What you still chase

- Trust.
- Response speed.
- Reliable partners.
- Real business momentum.

OGA is built to move beyond passive listings into verified, active business connection.

WHY OGA

OGA TURNS NETWORK ACCESS INTO ACTIVE BUSINESS.

01 Verified Network

Vetted, Reputable, Quality-Driven Partners you can approach with greater confidence.

02 Digital Tools

Quote, Connect, And Manage freight conversations inside one smarter environment.

03 Real-World Growth

Global and regional events create the face-to-face relationships that move business forward.

WHO IT IS FOR

WHO OGA IS BUILT FOR.

For freight forwarders that want stronger partner quality, better visibility and more active global business development.

Independent Freight Forwarders

Built for companies that want a trusted global network, not just more names to browse.

Growth-Focused Logistics Teams

Ideal for businesses looking to expand trade lanes, visibility, and partner access.

Teams Seeking Verified Partners

Designed for forwarders that value credibility, responsiveness, and relationship quality.

Businesses Ready For More Than Listings

For companies that want active networking, digital tools, and business-building support.

MEMBER PORTAL

THE MEMBER PORTAL OPENS INTO ACTION.

Dashboard, directory, messaging, notifications, and structured company setup all sit inside one working member environment.

Dashboard

Welcome panel, tier, reward points, KPIs, recent quotes, quick actions, and the next step after login.

Directory

Search by country, city and specialization so teams shortlist the right partner faster.

Messages and Alerts

Quote discussions, reminders, announcements, and updates stay inside the same member ecosystem.

Company Setup

Structured onboarding captures contacts, branches, trade lanes and capabilities.

QUOTE TOOL

A REAL RFQ WORKFLOW, NOT JUST A REQUEST FORM.

Members can raise structured freight RFQs, route them through statuses, compare bids, message partners, and nominate the right supplier without losing context.

What it covers

Ocean FCL, Ocean LCL, Air Freight, Transport, Warehousing, and Breakbulk / Ro-Ro.

What members can do

Draft, send, receive, quote, compare bids, nominate, clone, void, search, filter, and assign work internally.

Why it matters

Requests become more standardized, more comparable, and less dependent on vague email threads.

Priority settings, structured charge lines, and in-context messaging make the quote desk usable for day-to-day freight work.

TEAM AND GROWTH

BUILT FOR REAL COMPANIES, NOT ONE LOGIN.

OGA can expand from one member account into a working company setup with teams, branches, rewards, and clear upgrade paths.

Team Management

Invite staff by role, branch, city, phone, and title so portal usage spreads across the actual team.

Branch Structure

Show branch offices, warehouse sites, distribution centers, and real geographic presence inside the network.

Rewards

Use reward points to boost your quote visibility, putting your offer in front of more potential partners and closing deals faster.

Affiliate Program

Members and affiliates can bring in new companies and earn recurring payouts.

TRUST, GOVERNANCE AND SUPPORT

A GOVERNED NETWORK, NOT A LOOSE LIST OF MEMBERS.

Structured Onboarding

Company information, branch data, financial details and compliance inputs make members easier to trust and easier to find.(all members are verified by Dun & Bradstreet)

Complaints and Escalations

Members have formal complaint and grievance routes instead of depending only on informal follow-ups.

Events and Support

Global and regional events and platform-level support help relationships continue beyond shipments.

This matters because freight partnerships are judged long before the first shipment moves and long after the quote is sent.

WHY OGA OVER WCAWORLD OR JCTTRANS

WHY CHOOSE OGA OVER A LARGER LEGACY NETWORK?

Older networks are established directories. OGA is the better fit if you want a new-gen tech driven alliance with a more connected member journey and stronger early-adopter upside.

Connected Workflow

Search, quote, message, notify, and follow up inside one member flow instead of jumping between isolated tools.

Company-Level Adoption

Teams, branches, rewards, referrals, upgrades, and governance features sit in the same workspace.

Founder Upside

Early members can secure limited founder positioning, better economics, and more visible market presence.

Operator-Led Focus

OGA is being shaped around how freight teams actually work, not just how members get listed and discovered.

Best fit for forwarders that want a more hands-on alliance they can still grow with, not just a bigger directory footprint.

ILLUSTRATIVE COST COMPARISON

SAME NEED. VERY DIFFERENT COST LOGIC.

Example scenario

PHARMA SPECIALTY + DANGEROUS GOODS + 3 BRANCHES

JCTRANS

~\$20,000 per year

Illustrative logic:

Base fee

Specialty uplift

Branch-based uplift

WCAWORLD

~\$25,000 per year

Illustrative logic:

Base fee

Pharma / DG uplift

Per-branch uplift

OGA TITANIUM

\$5,499 per year

Reference used:

Second-highest OGA tier

No separate pharma or DG uplift
in this example

No different branch fee in this
example

Point being made: OGA stays simpler, while legacy-style pricing can compound when specialty access and branch structure are layered in.

MEMBERSHIP TIERS

SIMPLE PRICING FOR GROWING MEMBERS.

Founder benefits are detailed on the next slide. The table below keeps the standard membership ladder simple and scannable.

Tier	Price	Quotes / Enquiries	Team / Branches	Best Suited For
Silver	\$2,499 / year	240 quotes / 120 enquiries	1 team member / 1 branch	Early-stage businesses starting their growth journey
Gold	\$3,499 / year	600 quotes / 300 enquiries	2 team members / 2 branches	Small and mid-sized companies needing structured expansion
Platinum	\$4,499 / year	1200 quotes / 600 enquiries	4 team members / 4 branches	Trade-lane and specialty-focused businesses needing targeted solutions
Titanium	\$5,499 / year	Unlimited* / Unlimited*	5 team members / 5 branches	Large companies with broader scale and complexity
Founder	\$7,499 / year	Unlimited* / Unlimited*	7 team members / 7 branches	Large companies seeking acquisition-led expansion

All tiers include dashboard, directory, quote tool, events and support.

FOUNDING MEMBER

WHY BECOME A FOUNDING MEMBER NOW?

Why Now

- OGA launched in late 2025.
- The founding window is open while the network is still being shaped.
- Founder allocation is limited by country.
- Early members can secure position before markets get crowded.

What Founders Get

- Unlimited quotes and enquiries.
- Priority event sponsorship placement.
- Priority one-to-one meeting access.
- Early platform access and stronger visibility.
- 20% share on members they bring in versus 10% standard.
- One founder seat per country, up to three in larger markets.

Founder plan: \$7,499 per year with 7 team members, 7 branch locations, and premium M&A visibility for promoters and CXOs.
